

This is a list of medical conditions that are automatically accepted without the need to be referred to full Medical Screening.

- Abnormal Smear Test (no malignancy)
- Achilles Tendon Injury
- Acne
- Acronyx (Ingrowing Toe-nail)
- Adenoids
- ADHD Attention Deficit Hyperactivity Disorder
- Age Spots (Liver Spots)
- Allergic Rhinitis
- Alopecia
- Anal Fissure
- Athlete's Foot (Tinea Pedis)
  
- Bell's Palsy (Facial Paralysis)
- Benign Breast Lump(s)
- Benign Prostatic Enlargement
- Bladder - Cystitis (fully recovered, no hospital admissions)
- Bladder Infection (fully recovered, no hospital admissions)
- Bladder Muscle Spasms/Incontinence (no infection)
- Blepharitis
- Blindness
- Blocked Tear Ducts
- BPPV (vertigo)
- Breast – Fibroadenoma
- Breast Cyst(s) – non malignant
- Breast Enlargement
- Breast Reduction
- Broken Bones (other than head or spine)-(no longer in plaster)
- Bunion (Hallux Valgus)
- Bursitis
  
- Caesarian Section
- Carpal Tunnel Syndrome
- Cartilage Injury
- Cataracts
- Cervical Erosion
- Chalazion
- Chicken Pox (fully recovered)
- Cholecystectomy
- Chronic fatigue syndrome (if only symptom is fatigue)
- Circumcision
- Club Foot (Talipes)
- Cold Sore (Herpes Simplex)
- Common Cold(s)
- Conjunctivitis
- Constipation
- Corneal Graft
- Corns
- Cosmetic Surgery
- Croup (fully recovered with no residuals)

- Cuts & Abrasions (non self-inflicted)
- Cyst – Breast (non malignant)
- Cyst – Testicular (non malignant)
- Cystitis (fully recovered, no hospital admissions)
- Cystocele (fully recovered, no hospital admissions)

- Dacryocystitis
- Deafness
- Deviated Nasal Septum
- Diarrhoea and/or Vomiting (resolved)
- Dislocations:-

Ankle

Congenital Hip

Elbow

Finger

Shoulder

- Dry Eye Syndrome
- Dupuytren's Contracture
- Dwarfism

- Ear Infections (resolved - must be all clear prior to travel if flying)
- Eczema (no hospital admissions or consultations)
- Endocervical Polyp
- Enuresis
- Epididymitis
- Epiphora (Watery Eye)
- Epispadias
- Epistaxis (Nosebleed)
- Erectile Dysfunction
- Erythema Multiform or Nodosum (no hospital admissions)
- Essential Tremor
- Eyelid Cyst

- Facial Paralysis (Bell's Palsy)
- Favus
- Femoral Hernia
- Fibroadenoma
- Fibroid – Uterine
- Fibromyalgia
- Fibromyositis
- Fibrositis
- Food Poisoning (resolved)
- Friberg's Disease
- Frozen Shoulder
- Fungal Nail Infection

- Gall Bladder Removal
- Ganglion
- Gastric Reflux
- Gastro-oesophageal Reflux
- Gastroenteritis (resolved)
- German measles (Measles) (fully recovered, no complications)
- Gingivitis
- Glandular Fever (full recovery made)
- Glaucoma

- Glue Ear (resolved - must be all clear prior to travel if flying)
- Gout
- Grommet(s) inserted (Glue Ear)
- Gum Disease
- Gynaecomastia
- Haemorrhoids (Piles)
- Hallux Valgus (Bunion)
- Hammer Toe
- Hashimoto's Thyroiditis
- Hay Fever
- Hernia (not Hiatus)
- Herpes Simplex (Cold Sore)
- Herpes Zoster (Shingles)
- Hip Replacement (no subsequent arthritis)
- Housemaid's Knee (Bursitis)
- HRT (Hormone Replacement Therapy)
- Hydrocele (Testicle)
- Hyperhidrosis (Excessive Sweating)
- Hypospadias
- Hysterectomy (provided no malignancy and carried out more than 6 months ago)

- IBS
- Ichthyosis Simplex
- Impetigo
- Impotence
- Incontinence (bladder) (no infections)
- Indigestion
- Influenza
- Ingrowing Toe-nail (Acronyx)
- Inguinal Hernia
- Insomnia
- Intercostal Neuralgia
- Intertrigo
- Iron Deficiency Anaemia (no blood transfusions)
- Irritable Bowel Syndrome (IBS)
- Impetigo

- Joint Replacement (non-arthritis) - (no subsequent arthritis)
- Joint Resurfacing (non-arthritis) - (no subsequent arthritis)

- Keratoconus
- Knee Injury - Collateral/cruciate ligaments
- Knee Replacement 1

- Labyrinthitis
- Laryngitis
- Lazy Eye
- Learning Difficulties
- Leucoderma
- Lichen Planus
- Ligament(s) or Muscular injury (not back-related)
- Ligaments (injury)
- Lipoma
- Liver Spots (Age Spots)

- Macular Degeneration

- Mastitis
  - Mastoidectomy (resolved - must be all clear prior to travel if flying)
  - ME (Myalgic Encephalomyelitis) (if the only symptom is fatigue)
  - Meibomian Cyst
  - Meniere's Disease
  - Menopause/HRT
  - Menorrhagia
  - Migraine (provided this is a definite diagnosis and there are no ongoing investigations)
  - Mole(s)
  - Molluscum Contagiosum
  - Myalgic Encephalomyelitis (ME) (if the only symptom is fatigue)
  - Myxoedema
- 
- Nasal Infection
  - Nasal Polyp(s)
  - Nosebleed(s)
  - Nystagmus
- 
- Obstructive Sleep Apnoea
  - Osgood-schlatter's Disease
  - Osteochondritis
  - Otosclerosis
- 
- Pharyngitis
  - Photodermatosis
  - Pile
  - Pityriasis Rosea
  - PMT (Pre-Menstrual Tension)
  - Polymorphic Light Eruption
  - Post Viral Fatigue Syndrome (if the only symptom is fatigue)
  - Pre-menstrual Syndrome
  - Prickly Heat
  - Prolapsed Uterus (womb)
  - Psoriasis (no hospital admissions or consultations)
- 
- Reflux Oesophagitis
  - RSI (Repetitive Strain Injury)
  - Restless Leg Syndrome (provided no underlying disease - e.g. peripheral vascular disease - no associated anxiety/stress)
  - Retinal Detachment (provided not due to any underlying disorder or disease)
  - Retinitis Pigmentosa
  - Rhinitis (Allergic)
  - Rosacea
  - Ruptured Tendons
- 
- Scabies
  - Scalp Ringworm (Tinea Capitis)
  - Scheuermann's Disease
  - Sebaceous Cyst
  - Shingles (herpes Zoster)
  - Shoulder Injury
  - Sinusitis
  - Sjogren's Syndrome
  - Skin Ringworm (Tinea Corporis)
  - Sleep Apnoea
  - Sore Throat

- Sprains
- Stomach Bug (resolved)
- Strabismus (squint)
- Stress Incontinence
- Synovitis
  
- Talipes (Club Foot)
- Tear Duct Stone
- Tendon Injury
- Tendonitis
- Tennis Elbow
- Tenosynovitis
- Testicles – Epididymitis
- Testicles – Hydrocele
- Testicles – Variocele
- Testicular Cyst
- Testicular Torsion (Twisted Testicle)
- Throat Infection(s)
- Thrush
- Tinea Capitis (Scalp Ringworm)
- Tinea Corporis (Skin Ringworm)
- Tinea Pedis (Athlete's Foot)
- Tinnitus
- Tonsillitis
- Tooth Extraction
- Torn Ligament
- Torticollis (Wry Neck)
- Trichomycosis
- Turner's Syndrome
- Twisted Testicle
  
- Umbilical Hernia
- Undescended Testicle
- Urethritis (fully recovered, no hospital admissions)
- Uterine Prolapse
  
- Varicocele
- Varicose Veins - legs only , no ulcers or cellulitis (if GP has confirmed that client is fit to travel)
- Vertigo - provided no disabling episodes
- Visual Impairment
- Vitiligo
  
- Warts (benign, non-genital)
- White Coat Syndrome (No more than 2 medications, no change in treatment within last 6 months)
- Womb Prolapse (uterus)
- Weak Bladder (no infections)
- Wry Neck (torticollis)
